

DIYOR KHASANOV

Full Stack & Mobile Engineer · Co-Founder, ALIA

+998 88 323 05 71 · bdiyorxasanov@gmail.com · github.com/Diyor-Khasanov-dev · linkedin.com/in/diyor-khasanov · diyor-khasanov-dev.vercel.app
4 hackathon wins · Open-source contributor · Ships to production · Open to remote opportunities worldwide

TECH STACK

Frontend: React (18/19), Next.js (14–16), Vue.js (2/3), Nuxt.js, TypeScript, Tailwind CSS, Redux Toolkit, Zustand, TanStack Query
Backend: Node.js, Express.js, NestJS, REST & GraphQL APIs, WebSockets/Socket.io
Mobile: React Native, Expo (EAS Build/Updates), Reanimated & Gesture Handler
Databases: PostgreSQL, MongoDB, Redis, Prisma & Drizzle ORM
DevOps/Testing: Docker, AWS, Vercel, GitHub Actions, Jest, Playwright, Vitest
AI Tooling: Claude Code, GitHub Copilot, Cursor, prompt engineering & AI-assisted workflows
Languages: JavaScript, TypeScript

EXPERIENCE

Co-Founder · ALIA Aug 2026 – Present
Asia · Hybrid

- Co-founded ALIA, driving core platform architecture, technical strategy, and the engineering roadmap.
- Architect scalable web and mobile solutions, integrating full-stack frameworks with responsive UI systems.
- Lead cross-functional product development, targeting high-performance, high-reliability delivery.

Software Engineer Intern · FloLabs Innovations Group May 2026 – Aug 2026
Remote

- Delivered across healthcare, AI & robotics verticals inside a venture studio ecosystem, under the Efestos Labs model.

Teacher · Fast Education May 2026 – Present
Uzbekistan · On-site

- Teach frontend, backend & full-stack web development from fundamentals to production-ready skills.
- Design hands-on curriculum and run real project sprints with student cohorts.

Full Stack Engineer · Gorrion Apr 2025 – Jan 2026
Remote

- Delivered end-to-end web & mobile products at a 200+ project software consultancy under Agile ownership.
- Owned full lifecycle from MVP through scale to long-term maintenance — React, Next.js, Node.js, TypeScript.

Back End Developer · UZIT Group Aug 2023 – Feb 2025
Samarkand, Uzbekistan · Hybrid

- Architected scalable server-side systems for a global digital marketing & IT company.
- Maintained backend infrastructure across digital marketing platforms and enterprise software.

Frontend Developer · MABA Agency Mar 2022 – Apr 2023
Remote

- Produced client-facing websites & dashboards with pixel-perfect delivery for an AI-powered business optimisation agency.

EDUCATION & CERTIFICATIONS

Najot Ta'lim — Frontend Engineering Program, GPA 3.97/4.0 (May 2025 – Apr 2026)

Meta · Coursera — Frontend Development Professional Certificate (2024–Present)

Scrimba — TypeScript, JS Algorithms & Prompt Engineering (2025–Present)

HONORS & AWARDS

- 1st — Tez: bank payment platform with secure transactional routing, now live in production.
- 1st — Lumora: algorithmic RoboContest grading platform with real-time leaderboard sync.
- 1st — Alif Tech: payment platform prototype built in a 24-hour sprint.
- 1st — Billz: CRM/ERP interface, recognized by judges for UX polish and accessibility.
- 3rd — Yandex Dev Camp: music-streaming MVP and recommendation engine prototype.

OPEN SOURCE

- kubernetes/kubernetes — contributed Go controller improvements and API server optimizations; diagnosed and patched high-concurrency race conditions in cluster resource handling.
- microsoft/vscode — refactored frontend workbench components for rendering performance and enhanced extension API/UI accessibility.
- google-gemini/gemini-cli — built CLI utilities and streaming terminal UI for the Gemini API.
- shadcn/ui — community contributor to the headless component ecosystem.

LANGUAGES

Uzbek: Native

English: Advanced (C1, professional working proficiency)

Russian: Intermediate (B1/B2)
